- B. Before submitting a Proposal, each Bidder must inspect the site of the proposed work to arrive at a clear understanding of the actual conditions under which the work is to be done. Bidders will be held to have compared the premises with the drawings and specifications to have satisfied the Bidder as to all conditions affecting the execution of the work.

7. OWNER'S OPTIONS / VOLUNTARY ALTERNATES

Reference in the Bidding Documents to any article, device, product, material, fixture, form, process, or type construction by name, make, type or style will be interpreted as establishing a standard of quality and not as limiting competition. However, substitutions will only be considered through the "Owner's Options/ Voluntary Alternates" provisions of the Bidding Documents as follows:

- a) where only one such name, make, type or style is specified in any instance, whether or not followed by the phrase "or other approved", "or equal" or other words to that effect, the contractor's Proposal must be based on the name, make, type or style so specified; and
- b) where the Bidding Documents mention more than one name of subcontractor, supplier or process, or more than one name, make type or style of article, material or equipment item, the Contractor's Proposal must be based on one of the named makes, types or styles; and
- c) when substitutions are proposed, the Contractor's proposal must clearly state, under the heading "Owner's Options / Voluntary Alternates", the names, makes, types or styles which the Contractor may propose other than those designated in the Bidding Documents together with the proposed cost adjustments, if any.

- A. Before the Owner makes the award, neither the Owner nor Design Professional will give verbal answers to inquiries regarding the meaning of drawings and specifications, or verbal instructions. Any such verbal statements by any persons, prior to the award, are invalid.
- B. Any explanation desired by Bidders must be requested of the Design Professional in writing, and if explanation is necessary, a reply will be made in the form of an addendum, a copy of which will be forwarded to each Bidder who has received a set of the Bidding Documents and to such other prospective Bidders as have requested a copy of each addenda.
- C. No questions or inquiry relative to interpretation of bidding documents will be entertained within the last three (3) days before the bid due date.
- D. All questions and inquiries regarding the Project must be directed to:

Contact Name, Title, Firm Name, and Email Address

Any action taken or costs incurred by the apparent successful Bidder prior to the issuance of the written notice will be at his own risk.

12. TIME OF STARTING AND COMPLETION

The date of the Notice to Proceed shall be the official "date of award" of the Contract. The successful Bidder must furnish the required project specific safety plan, bonds and insurance, to the Owner's AEC Project Controls Office and commence active work on the project, all within ten (10) days after date of official Notice to Proceed, as described above, unless a longer period is stated in the Bidding Documents, and must complete the work within the time stated in the Bidding Documents.
