ACTION REQUEST

Subject: South Quadrangle Renovation

Action

Requested: Approval of Schematic Design

Background:

At the September 2012 meeting, the Board of Regents approved the South Quadrangle Renovation project and the appointment of SmithGroupJJR as the architect for its design. The project will renovate approximately 106,700 gross square feet of space, including the ground and first floors of South Quadrangle. The renovation will provide expanded student dining facilities for the Central Campus neighborhood and updated bathrooms throughout the building. New and reorganized spaces will revitalize the residence hall and create much-needed spaces for student interaction and community development, such as group study spaces, music practice rooms, and refurbished lounges. Infrastructure improvements within the renovated areas include: new plumbing, heating, cooling, ventilation, fire detection and suppression systems; wired and wireless high-speed network access; and accessibility improvements. The scope of this project includes the architectural, mechanical, and electrical work necessary to accomplish these improvements. There will be no impact on parking from this project.

The estimated cost of the project is \$60,000,000. Funding will be provided from Housing resources. The construction cash flow may be provided, all or in part, by bond proceeds or increasing the commercial paper issuance under the commercial paper program, secured by a pledge of General Revenues, and authorized by the Board of Regents. The project is expected to provide an average of 131 on-site construction jobs. Construction is scheduled to be completed in the summer of 2014.

We recommend that the Board of Regents approve the schematic design for the South Quadrangle Renovation project as presented at the meeting.

Respectfully submitted,
